At 1:00 there's going to be a march on the capitol building. Supposedly GEOTUS will be speaking before then.

The more voices proclaiming loudly, the more terror we strike into the black corroded hearts of communist scum.

They will know that WE ARE LEGION, even if we have to come for them where they live.

The speakers today are but a single star in the sky. The entire galaxy is the ARMY of patriots who are rising up to settle this.

The soon-to-be good commies are out numbered.

It's not over.

The peaceful resolution is over.

This isn't the end but the beginning.

It is only over if those of us present leave peacefully. Then it is truly over forever.

Good fucking lord with this blackpill shit.

All of you realize Trump didn't just come out of thin air, right? It's not like a savior was dropped by the heavens in our time of need, as much as it may seem sometimes.

The climate of this country produced Trump, and gave him the platform from which to run. That climate has been simmering long before Trump took office. It began with the Bush charade, picked up steam with the obongo "Change we need" horseshit, which morphed into the Tea Party movement and became the base that elected Trump.

They can't sew everything back up into a nice neat little bow. This whole debacle with impeachments and election fraud is them desperately trying, and they're doing horribly at it which is just waking more people up.

It's not really a blackpill. It's a call to arms. There will never be an elected anti establishment person again if they are allowed to take the presidency. Trump happened because the establishment was negligent. Their guard is raised now, and they will make damn sure there is no path to power again for anyone they do not approve of if they are given the opportunity to do so. So yes, make sure to rise up today if only platitudes are given. Biden (or any other establishment candidate) must never be allowed to get within touching range of the presidency this election. If it happens, all paths will be closed besides an armed revolution. Which might eventually happen if we do.
